About us

We are a group of experts in crypto, blockchain and technologies around the European region. CCCE (Called Triple C E) is an enthusiastic team in Crypto World. At this platform we believe we have another new better way to digital wealth building.

After understanding it very well, If you like it, let's re-write the earning method together. We are committed to your progress !!

At this crypto platform we bring together crypto lovers from around the globe to explore smarter, safer and more affordable ways to earn Crypto / USDT

CCCE

Our Mission

Help people to earn real crypto
at real time without any investment
and risk factors.

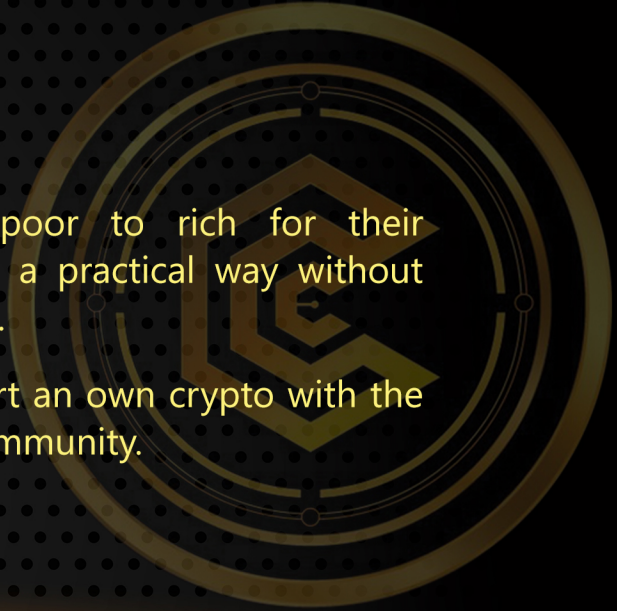

CCCE

Our vision

Transform the poor to rich for their well-being using a practical way without any commitment.

After that, to start an own crypto with the same wealthy community.

Great Business Opportunity

Step 1:

You want to donate 10 USDT (Tether) with your sponsor's referral link through MetaMask, TrustWallet or Token Pocket. Then you will get an ID for you. This is the working group for you and you are the team leader.

Step 2:

You want to refer 2 Ids A & B using your referral link. After that A refer 2 Ids A1 & A2. B refer B1 & B2 using their own referral link. Now your working group (WG) is completed, you + 2 + 4 correctly. Anybody can fill this group, you or your upper line. When you refer two Ids then only start your commission withdrawal.

Little more details about the plan

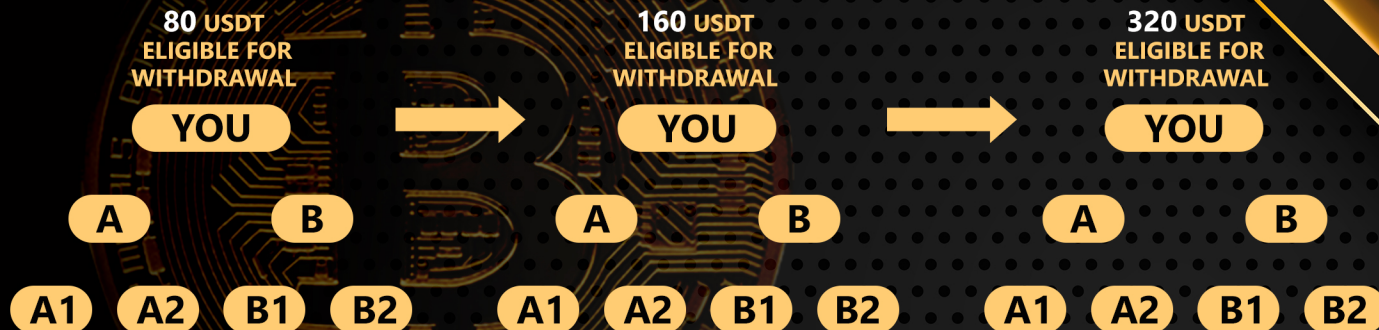

All the automated groups may be filled with your referral IDs and your referral lines from unlimited depth when they are promoted to all the automated groups by first come first method left to right automatically. You can refer minimum 2 to maximum unlimited when they get promotion to AG it will follow your ID moving through the referral line up to your 20th Group. If one or two IDs are not working it's not an issue to you, because you can refer to another they will follow your ID.

You can create your own many other IDs after the completion of the first working group. After completing the WG, when you create your next IDs, you can use your USDT from your wallet without any Gas fee. Sometimes one ID may fill their group immediately because it is a very simple task at that time that ID will be promoted to the next group, don't worry about that because at the time of all the promotions that ID will search the sponsor and sponsor line, so next time it may support your ID. (All the time of next level promotion IDs will search the parent ID or parent's parent like that
